- NPT Right hand threads

Replaces RIDGID® part number:

- 47765 (1/2"-3/4")
- 47770 (1"-2")

Toledo Pipe 418 Oiler Gun and Bucket works with RIDGID® 300, 535,700 and 12-R Pipe Threading Machines

Toledo Pipe Tools® is proud to give you alternative high quality hand held oiling sytem. Feel confident on the job site when threading your pipe knowing you will always have the flow of oil needed to get high quality threads. Can be used with any hand held pipe threader or non automatic oil pipe threaders. Works with RIDGID® 300, RIDGID® Old Style 535, RIDGID® 700 Power Drive, RIDGID® 600 Power Drive, RIDGID® 690 Power Drive, and RIDGID® 12R Ratchet Threader.

- 50% more oil per stroke than other hand-held oilers for longer die life.
- An ergonomic 2-finger trigger design that reduces user fatigue.
- Die cast heavy-duty gun body
- Convenient anti-slip grip design with integral hook for easy hanging.
- Heavy Duty Reservoir: The new material withstands abrasion.
- The new reservoir will not crack or leak.
- Fits RIDGID® 72327 418 Oiler Gun and Hose
- Works with RIDGID® 300 Complete Pipe Threader
- Works with RIDGID® Old Style 535 Pipe Threader
- Works with RIDGID® 700 Power Drive
- Works with RIDGID® 600 Power Drive
- Works with RIDGID® 690 Power Drive
- Works with RIDGID® 12R Ratchet Threader

Tuf-Cut™ Dark Pipe Thread Cutting Oil - 1 Gallon

Tuf-Cut Dark™ Threading Oil is a premium quality metalworking fluid formulated as an all purpose medium and heavy duty metal removal oil. It is an ideal oil for use in the shop where a number of applications are present thus reducing the number of oils needed.

- Container Size: 1 Gallon
- Dark Oil - Traditional high performance mineral oil formulated to produce superior quality threads on stainless steel and black pipe.
- Cools threads and pipe during operation
- Speeds metal removal
- Improves thread quality
- Sulphur added to prevent metal-tometal contact, and reduce friction and heat build-up.
- Chlorine added as a catalyst to activate the release of sulphur at an even lower temperature.
- Better lubrication and heat dispersion characteristics prevent binding and catching of dies.

CONTENTS: Refined petroleum distilate, and blended with proprietory additives known to contain sulfur, chlorine, a lubricity additive and trace of silicone polymers

Toledo Pipe 1452 Tric Tray Easily Hold Tools on RIDGID® 300 Complete Pipe Threading Machine 22638

Toledo Pipe Tools is proud to give you an alternative quality model 1452 Tric Tray. Larger footprint than the RIDGID® Clip-on tool tray along with 2" tall side walls. Also a V notch to holds up to 2" pipe. No removeable parts or clips to lose and easily attaches to RIDGID® 300 threading machine.

- Larger footprint than the RIDGID® Clip-on tool tray
- V notch to holds up to 2" pipe
- No removeable parts or clips to lose
- Easily attaches to RIDGID® 300 threading machine

Toledo Pipe 42575 Model 32 Transporter fits RIDGID® 300 Power Drive, RIDGID® 920 Groover, RIDGID® TRISTAND® Vises

Toledo Pipe Tools is proud to give you an alternative quality model 32 Transporter. Do not break your back moving equipment around. Standard the transporter is known to move the RIDGID® 300 Power Drive but it also is usable on RIDGID® TRISTANDS® or any other piece of equipment that can hold pipe. Simply Chuck into 300 Power Drive or Tighten Vise down and one man can transport the equipment any where.

- High durability
- Solid Rubber Tires
- Simply Chuck into 300 Power Drive or Tighten Vise down and off you go.
- Fits RIDGID® 300 Power Drive
- Fits RIDGID® 920 Roll Groover
- Fits RIDGID® 40A TRISTAND® Yoke Vise
- Fits RIDGID® 425 TRISTAND® Chain Vise
- Fits RIDGID® 460 TRISTAND® Chain Vise
- Replaces RIDGID®® Part: 42575

Toledo Pipe Oil Splatter Guard fits RIDGID® 300 Pipe Threader - No more oil spills and splashes

The Splatter Guard lets you go into a job site and minimalize the mess that threading pipe creates. Funneling the oil and metal chips down into the 418 oil bucket. Easily attaches to the RIDGID® 300 Power Drive and fits nicely below the carriage.

- Keep oil and metal chip mess to a minimal size.
- Easily attaches to RIDGID® 300 Threader

ARGCO Outstanding Jaws Roll cut pipe with RIDGID® 300 cuts 2-1/2 - 6" Pipe

Easily cut 2 1/2" - 6" Pipe using your existing RIDGID 300 or RIDGID 535 Pipe threading machine. If you are occasionally cutting large diameter pipe this is your best solution. Enhancing the capability of your pipe machine and not tying up thousands of dollars in a cutter that gets occasionally used.

- Install or remove in less than one minute without any changes to the pipemachine.
- The internal jaws fit inside the end of the pipe. Expand them outward until they evenly touch the inside wall of the pipe at three points of contact.
- Roll cut 6" thinwall in less than one minute
- 6" schedule 40 steel pipe in less than 4 minutes!
- 4" thinwall in less than 30 seconds!
- Compatible with steel, stainless steel, aluminum, plastic and unlined cast iron pipe.
- The machine turns the pipe, making roll cutting easy.
- No scars are placed on the outside of the pipe.
- Provides accurate, square cuts.
- No abrasive saw blades to replace.
- Pipe machines usually turn 30-60 revolutions per minute - sufficient to quickly roll cut pipe.
- The jaws reach 1/2" inside the pipe and will not interfere with roll grooves. (Proper grooves begin 5/8" from the end of the pipe)

- Perfect for use in pipe welding - hold and rotate large diameter pipe as needed.
- Comes complete with a convenient case that clips onto the leg of a stand below the power drive.
- Standard set of REVERSE Jaws will grip 2-1/2" to 6" pipe.
